Preparing For Cold Weather

Protect People

Make sure to bundle up and wear layers outdoors. Have extra blankets ready in case power goes out. Check in with family and neighbors- especially those who are more at risk such as elderly or disabled

Protect your Pipes

To prevent freezing and possible bursting of outdoor water pipes, pipes should be wrapped, drained, or allowed to drip slowly

Stay Weather Aware

Be sure to stay alert through checking the latest forecast

Protect your plants
Know the temperatures thresholds of your plants. If possible, cover your plants before sunset to help retain heat

Vehicle Preparedness

Make sure your car has supplies such as water and blankets in case you are traveling anywhere with icy roads and you get stranded. Check to see if you need to fill up your tank before a cold weather event

Protect your Pets

Please bring your pets inside

Freezing temperatures are in the forecast, what can you do now to prepare?

Coffee & Connections

Join us for an open and supportive gathering where we come together to build connections and have meaningful discussions about critical issues affecting our communities.
